SIXTH YEAR.

MAYSVILLE, KY., FRIDAY, SEPTEMBER 24, 1897.

ONE CENT.

Circulation
LARGEST IN THE CITY.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "quotations" free any more than a merchant can give away his goods. A newspaper is a business, and its stock in trade, and its circulation should be paid for, no matter in what part of the paper they appear.

The Manchester Fair paid all premiums and expenses and had \$300 balance.

The Kentucky School for the Deaf and Dumb at Danville began its fall session with 273 pupils enrolled.

Charles Blitt, son of Mayor Ed Blitt of Newport, was badly injured in a bicycle collision a few days ago.

Mr. Henry Thompson, who was stricken with paralysis at his home near Mayfield last week, continues in a critical condition.

Bishop Maes of Covington has been selected for the Archdiocese of New Orleans, confirmation having been given by the clergy.

The Court of Appeals resumed its sittings Monday. There are 775 submitted cases on the docket and 807 cases not submitted--altogether 1582.

Murphy the Jeweler carries the largest stock of Diamonds and Gold Watches to be found in the city. His prices are the lowest. If you want first-class goods call on him.

Mr. William A. Bramel, aged 20, of Mason county, and Miss Carrie A. Davenport, aged 21, of Woodford county were married at the County Clerk's office yesterday by the Rev. F. W. Harrop of the M. E. Church.

Some fellow whose name could not be learned tried yesterday to batter down Henry Dieterich's bell with his head. He was one of the "smart alecks" who insist on swinging onto the streetcars. He is now nursing a splendid gash in his forehead.

The largest audience of the week assembled at the Opera house last evening and witnessed one of the best and cleanest vaudeville entertainments ever furnished Mayville audience. There was snap and vim to the performance from the rise to the fall of the curtain. In fact it was an ideal "continuous performance," which is now the prevailing fad of the country. Cyrene, the phenomenal dancer, scored her usual success and was warmly received. A change of bill tonight.

BLACK DIAMOND ROOM.

Indiana Alive to the Importance of Boone's Great Railway System.

Colonel Albert E. Boone, Hon. William Kirby and General J. C. J. Williams of Knoxville are now in Indiana in the interest of the Black Diamond System of Railways, and the following special to The Courier-Journal tells how the work is progressing there:

PAUL, IND., September 22d.--An enthusiastic meeting of capitalists interested in the building of the Springfield, Ohio River and South Atlantic Railroad was held in this city today.

A promotion fund of \$125,000 was provided for and an organization was perfected.

Articles of incorporation will be filed with the Secretary of State at Indianapolis to-morrow.

BEANS AND BEAUTY.

That's What Attracted the Crowd to Electric Park Last Evening.

The Campfire of Helier Post, G. A. R., began at Electric Park last night with a splendid attendance.

The exercises opened with a speech from Dr. William Bowman, Post Department Commander, whose anecdotes of the War put everybody in jolly humor and everything in good running shape.

There was plenty of bean soup of the best, with as many trimmings as a spring bonnet, and a large platform in the best tent afforded opportunity for all who wished to keep step in the entraining music of the orchestra.

The weather was just right, and the young folk enjoyed the dance till a late hour.

The Campfire will continue the rest of the week, and you'll miss a pleasant evening if you don't go.

KICKERS' CORNER

If any one at any time for any reason has any "kicks" in any way at anything of any kind, here's the place to say his say. The door is open--write right in and help yourself, free gratis and for nothing--but don't make your "kicks" too long--it's the short, quick follow that counts--and eat.

But--The name of the kicker must accompany the kick, or it'll be kicked into the waste-basket.

Well, yes; they've taken the knot out of the step to the Explanade at the South-east corner, but the "bow" still remains on the surface at the Southwest ditto.

And the hole--by the great horned spoon, there's millions of 'em.

The question is, "What are the City Dads going to do 'er about it?"

Hon. W. W. Dickerson, Sound Money Democrat, is announced to speak in this city October 20th.

Rev. S. D. Dutcher will close his first year with the Christian Church here next Sunday, and will at the morning service, 10:30, give a short summary of the work.

A thing giving the name of F. M. Champ, and its home as Sherborne, was arrested on the Fairgrounds yesterday for crawling under the amphitheater like other reptiles. It had a hearing in Court this morning and was fined \$1 and costs.

FROM THE FAIR

There Was a Good Crowd and Much Sport Yesterday.

The "Wild West" show was on the grounds in its wildest form, and many of the feats of horsemanship were quite thrilling.

As on the previous day the balloon ascensions were all that could be asked.

All in all, the person who can't get a quarter's worth on the Mayville Fairgrounds this year is hard to please.

PLUNVILLE PICKINGS.

What our Good Friends Have Been Doing Since Our Last Report.

Light frost here Monday morning.

Farmers are busy cutting and hauling tobacco this week.

Uncle Steve Valentine was confined to his room the first of the week.

Mr. Sam Nower of Dover had a horse to drop dead in the harness here last week.

Thomas and Joseph Moody of Farmers, Rowan county, are visiting relatives here this week.

Charlie Mattingly will spend the winter with his aunt, Mrs. Alex. Mattingly, near Mt. Gilead.

Several attended the Mayville Fair this week. That balloon ascension was a drawing card.

Charlie Duran and wife of Wapella, Ill., are visiting relatives here and adjoining neighborhood.

Mrs. Sam Nower and son Paul of Dover returned home last week after a pleasant visit with relatives here for some time.

James Pannin, our James, now has occasion to use the paragonic bottle on occasion. Ask him about it. He says he is going to try and raise it if it is a girl.

Our Public School is progressing nicely under the management of Prof. William Hicks. Parents and pupils are well pleased with the teacher and his department.

Water Jenkins and his assistants are building a frame dwelling for John Valentine, the one where Mr. V. lives being a part of the old Tyler property that has stood there for over half a century.

The Colored Campmeeting commenced Saturday in Morton's Grove and will continue over Sunday. While there has not been a large attendance, Bro. Johnson and his co-workers have had some excellent meetings.

Very little work is being done on the M. and L. road this month, the work being placed on new turnpikes throughout the county. As the Treasury is almost empty, would it not be a good idea to keep up the free roads instead of building new ones, at such a cost to the county in November? We glory in your speak as to your goodhabitedness, but look out for your judgment.

From Another Correspondent.

Sam Ruth Frame is visiting relatives in Brown county, O.

A. J. Yancey is at home after a week's sojourn in Lewis county.

Our school is in a flourishing condition under the management of W. M. Hicks. Mr. and Mrs. Robert Boggs of Lewis county visited the family of A. J. Yancey Sunday.

Miss Mary Chambers, candidate for school Superintendent, was canvassing this section this week.

The colored folks are having quite a cool time for their campmeeting at the Morton Grove. There is quite a small attendance.

J. L. Crusey and daughter Miss Fannie and son-in-law John Morgan spent the past week with relatives near Hazel Grove, West Virginia. They drove through.

WOOL IMPORTS

At the Ports of New York, Philadelphia and Boston

In August, the First Full Month, Since the Tariff Act Went Into Effect.

It amounted to \$975,897 Pounds—The Unusually Short Time in the Month—Experiencing with an Attachment for Tariff by Naval Officers.

WASHINGTON, Sept. 24.—Orders were sent from the navy department Thursday to San Francisco to have the gunboat Wheeling sent to Honolulu as soon as she can be prepared for the voyage. The Wheeling has been put in commission recently and was about to start in a short time for Sulu, taking stores and relief men for the gunboat Concord, now on duty in Alaska.

The small, modern gunboat, somewhat smaller than the Lexington, now at Honolulu, but together the two boats will make a good force.

The Philadelphia will remain at Honolulu until the Wheeling arrives. Whether the Yorktown will then be detained is not certain, but it is likely that she will not stop at Honolulu on her way home from China any longer than it is necessary to secure coal and stores.

The Philadelphia, upon reaching Mare Island, will place most of her men on the Baltimore, which has just been extensively repaired, and the latter will go to Hawaii as Adm. Miller's flagship. The admiral will remain at Honolulu while the exchange is being made.

The records of the treasury department show that the imports of wool at the ports of New York, Philadelphia and Boston during August, 1897, the first full month since the new tariff act went into effect, amounted to \$975,897 pounds, the smallest importation of any month since January, 1894, when the aggregate amounted to \$7,475,000 pounds.

Wool importations for August, 1890, amounted to \$4,717,778 pounds, and the largest previous importation was for April, 1891, when it reached \$5,555,000 pounds. Last August's importations were very largely of class B or carpet wools.

The naval ordinance bureau has been securing some remarkable results from certain experiments it has been making by direction of Acting Secretary Roosevelt with an attachment for torpedoes, the invention of an Austrian named Obry. This is a kind of torpedo, and the results from the torpedoes station where the tests have been made are to be continued, so that it has the property of being directed at the object to be hit, or actually restoring the torpedo to which it is attached to a straight course towards the object even after it has been deflected. The addition of this device is said by the experts to make the torpedo almost a weapon of precision.

ENERGY SADLY WASTED.

A Calculating Barber's Astonishing Figures of a Bicycle Century Run.

Ryder, the calculating barber, was talking about cycling and was calculating forth upon the energy expended by women in making century runs, says the Philadelphia Record. "I have been a little figuring on the subject," he remarked, "and the result is most surprising."

"Take a woman who weighs 120 pounds and who rides a wheel weighing 30 pounds. In riding 100 miles I have calculated that a power of more than 3,000,000 pounds of energy, or about 120 horsepower, has been brought into play. And to think that all this has been expended in riding a bicycle."

"If the woman directed this energy in running a sewing machine, where in force of two pounds will run a needle over a piece of cloth for a distance of a foot, she could have humped a piece of maulin about 1,500,000 feet, or nearly 300 miles long."

"The same amount of energy used to propel a baby carriage weighing 12 pounds, would send the younger 600 miles. The same amount of energy expended in churning would produce 30 tons of butter, or would push a carpet sweeper over an area of 22,000 square feet."

"The woman also could have ironed, without any more fatigue, a strip of maulin one foot wide and 210 miles long. And if she had been shopping, just think of all the bargain counters she could have walked around. I tell you, it's astonishing. By run or with hand, sir."

GAMBLING IN CRIPPLE CREEK.

Lawyers in Every Saloon, and Miners Who Have Stacks of Wealth.

Out in Cripple Creek the gambling houses are running in every saloon, says the Nebraska State Journal. They are busy, grided affairs, where the hard-worked miners, after coming from their eight-hour shifts, go to while away their time and pay instead of thinking of home and mother and filling their socks with money to pay off the mortgages on the farms back home.

The stand fire and the operation behind the wheels watching the players as they risk their money, the less adventures hardly baring the courage to make the play, till, having seen some man get a winner, they, too, step up and bet on the black or the red.

On the tables are stacked piles of silver coin and gold eagles, and the operation of the machines every little while takes occasion to show that the game is loaded by much more than the thousand or so that is in sight by digging from a stack of hills in a receptive behind the tables where the notes are thrown when paid in, with a kind of reckless abandon that is quite taking.

At other tables a policy wheel will be running, with so many dangers a day. In the center of the room a crowd of men will be shooting craps, a large and intensely absorbed crowd witnessing the play at each place. On one side a stud poker game is being played, and on the other a roulette wheel. The old miners seem to favor this game particularly, and their graced features show the intensity of their interest as the dice come out and go.

CHALLENGED GOD.

A seedling forced open the Wall of an old Indian Council.

"In the town of Hanover, in Germany," Evangelist Mow writes in Ladies' Home Journal, "there is buried a German complex who denied the existence of God and ridiculed the idea of the resurrection. To further show her contempt for Christianity she ordered that on her death her grave should be built up of solid masonry and covered by large stones bound together by iron clamps."

She engaged her defiant defiance that through eternity this tomb should never be disturbed. But one day the seed from some tree, either blown by a wind or carried by a bird, lodged in a small crevice of the tomb, where soon it sprouted and began to grow. And then, as if nature had seemed to mock the haughty infidel, the quietly extended the delicate root of that seedling under the massive blocks of stone, and slowly raised them from their place. And now, although scarce four generations are passed since that tomb was sealed that insignificant seedling has accomplished what God Himself was challenged to accomplish.

Penitence, when they serve in the ranks.

Life heroes, when they serve in the ranks, can always count on shabby treatment from the British authorities. When the transport ship Warren Hastings, with 1,246 souls on board, was in the docks of the British and returned last January, in a pitch of night, with a heavy sea running, all England rang with the praise of the bravery and discipline of the troops, who stood drawn up in companies on the deck till the women and children were saved and then went ashore as they were told off. Many of the officers were then mentioned in orders and some were promoted. The soldiers and their families lost all their baggage.

After six months the war department allows each man six dollars to renew his kit and each family \$2.50 as compensation for loss property.

A Wild Deer Blew in His Face.

A gentleman who was talking on Boy's Life, N. Y., a few days ago became tired and sleepy. So he anchored his boat near the shore in a shady spot and lay down in the bottom of his caps. After awhile he was awakened by something blowing upon his face, and when he opened his eyes he saw a big buck standing to his belly in the water beside the boat. He rubbed his nose close to the Bahama's face. The gentleman lay quite still, rather enjoying the situation. About that time the deer came back to the corner of the little cave, and the buck with a bound disappeared in the woods.
